

THE PERSE
SCHOOL
CAMBRIDGE

Bring your own device

All Perse Sixth Form students are asked to bring a personal laptop or device to school and to all lessons to assist their learning and efficient working.

See www.perse.co.uk/byod for more information

All Lower Sixth and Upper Sixth students are asked to bring a personal laptop/tablet device with inking support into school.

We continue to value reading and writing and pupils will carry on developing and refining these skills in their lessons as before. This scheme ensures that students are best placed to develop their digital skills and, critically, to make best use of the Perse network and resources with efficient use of their study periods. Pupils who already have a device that meets or is close to our requirements can bring that to school.

Mobile device guidelines

Software & hardware requirements:

A modern internet browser

Access to Microsoft Office Suite or Office apps
(Free copy provided)

Physical keyboard
(attached or detachable)

A digital pen/stylus and touchscreen

Good battery life
(8 hours+)

Minimum 10" screen size with recommended 11.6"+

Insurance, maintenance and care:

Devices must be covered under personal insurance. The school does not take any responsibility for damage, breakages or faults in school. Devices should be stored securely in lockers when not in

use. We recommend that all devices have an appropriate protective case. The school's view is that an affordable device can provide an excellent, rugged and entirely adequate provision.
